Tear. Flip. Squeeze.

Innovative flexible liquid packaging that pours like a rigid bottle. Its proprietary packaging technology that features no cap to lose, no mess to wipe up, and is leak-free to the last drop... all while using a fraction of the plastic.

No cap. It seals itself.

Tear the tab off once. The valve opens when you squeeze, closes when you stop — no drips, nothing to unscrew.

Tough, durable, tamper-evident.

Sealed at fill and leak-proof. A one-hand squeeze pours exactly where you aim — and it bounces if you drop it.

Less plastic, start to finish.

Recycled content and far less virgin plastic than a rigid bottle. Empties fully, then flattens for the recycling bin.*

The Total Package

1. **TEAR TAB** no cap to lose
2. **SELF-SEALING VALVE** opens, pours, closes
3. **RIGID-BOTTLE FEEL** stands and stacks
4. **SQUEEZE TO DISPENSE** empties to the last drop

THREE SIZES

Glove-box and trailside top-offs

3.4 oz
100 ML

The everyday single fill

9 oz
266 ML

Shop benches and season-long use

16 oz
473 ML

*Recyclable where plastic bottles are accepted — check locally.

Applications, case packs, and private label on the back →

01 — APPLICATIONS

Made for what you run.

One pouch format across the lubricants you already buy — same tear tab, same clean dispense.

- Bar & Chain Oil
- 2-Cycle Oil
- 4-Cycle Oil
- Engine Oil
- Gear Oil
- Small Engine
- Powersports
- + your application

02 — WHY A POUCH

Fexible Packaging vs. the rigid bottle.

	THE POUCH	RIGID BOTTLE
OPENING	**Tear once — the valve seals itself**	A cap to remove, replace, and lose
POURING	**Controlled, one-handed squeeze**	Two hands and inconsistent flow
DROPPED	**Bounces — doesn't crack or shatter**	Can crack, split, and leak
EMPTY	**Every last drop, then flat for the bin***	Product trapped inside a bulky shell

UP TO **85%** LESS VIRGIN PLASTIC

UP TO **83%** LESS LANDFILL WASTE

UP TO **69%** LOWER GREENHOUSE GAS

vs. bottle cap and label, per internal life-cycle analysis — results vary by size. *Recyclable where plastic bottles are accepted; check locally.

03 — PRIVATE LABEL

Your brand, on the pouch.

Graphics print edge-to-edge on the film — no separate label to apply — so your brand carries the whole package. Artwork changes run faster than re-tooling a bottle, and one pouch works on shelf and online.

CASE PACKS

24 × 16 OZ STANDARD · SMALLER COUNTS AVAILABLE

MOQ, lead times, and mixed-size programs on request.

Shown: private-label pouches, 16 oz and 3.4 oz.
